- NEW compressive arch support band
- Antimicrobial silver layer

VOLUME/CUSHION INDICATOR

Experience the encapsulated fit of our all new SILVER for superior performance, optimum energy flow and blood circulation.

DRY*namix*® Proprietary Drynamix Moisture Management yarn

Made from US yarn

- Encapsulated in silver ions for lasting antibacterial properties and performance.
- 30% more fabric knitted into an extra deep heel pocket ensures the sock will not slip down.
- High heel tab lines the inside of your shoe for extra comfort.
- Sensitive knit construction ensures your sock top will be super comfortable and leave no pressure marks.
- Unique positioning of varying elastic bands maintaining a supportive fit, allowing natural foot movement and proper blood circulation. Two distinct elasticated zones: new compressive arch support band & ankle wrap.
